9.3 Charts for all traded instruments are drawn according to the default spreads and may differ from the prices displayed on the market watch according to the Client's account type because of differences in mark-ups.

9.4 The Client or any person acting on his behalf in accordance with the terms of this Agreement may place Orders via the Company's Online Trading System (by using the account login and password).

9.5 The Company at its discretion has the right to adjust the price(s)/price spreads provided/offered to the Client, cancel the transactions, delay in price confirmation and/or re-quote the price(s) offered, restrict the Client's access to streaming, instantly tradable quotes by providing manual quotation only, retrieve from the Client's account any historic trading profits provided that the Company can document that such trading profits have been gained through such abuse of price(s) at any time during the relationship with the Client and/or terminate the relationship with the Client immediately without notice or court order or judgment.

9.6 In case of an Order received and accepted by the Company in any means other than through the Online Trading System, the order will be transmitted to the Online Trading System (if possible) and processed as if it was received through the Online Trading System.

9.7 The Company will be entitled to rely and act on any Order given by the Client without any further inquiry, and any Orders will be binding upon the Client where such Order has been placed using his Access Data.

9.8 Any Order shall be conclusively deemed to be a valid Order from the Client to the Company, if the Company believes it to be genuine. The Client is responsible for any loss, claim or expense incurred by the Company following or attempting to follow any Order.

9.9 The Company shall receive and transmit for execution all Orders given by the Client strictly in accordance with their terms. The Company will have no responsibility for checking the accuracy of any Order. Any Order that the Client gives to the Company constitutes an irrevocable instruction to the Company to proceed with the Transaction on the Client's behalf.

9.10 The Company will not be obliged to check or have regard to any assumption made or expressed by the Client as to the effect of any trade or Order on his existing or overall positions. The Company will not assess any Client comments that any trade he places is a trade to close all or part of an open position. The Company will treat all trades as a buy or a sell regardless of whether the trade has the effect of opening a new position or closing an existing one. It is the Client's responsibility to be aware of his position at all times.

9.11 If the Client gives an Order which puts him in breach of any clause of this Agreement, the Company may in its absolute discretion fulfill such an Order to the extent it deems appropriate and the Client will not have any right to cancel any resultant partially filled Order. The Client will be liable for the breach of this Agreement and remain liable for the settlement of the resultant Transaction in accordance with the terms of this Agreement.

9.17 All open spot positions will be rolled over to the next business day at the close of business in the underlying

relevant Market, subject to the Company's rights to close the open spot position. Open forward positions will not be rolled over at the expiry of the relevant period into the next relevant period.

9.18 All future trades are classified as market orders and will be executed according to the market prices provided from its corresponding exchange at the time of execution; in addition, exchange fees may apply. 9.19 Rollover:

9.19.1 Futures-OTC contracts will not be rolled over automatically, and the Company does not accept rollover requests from the Client. In a case where a client needs to rollover a future-otc position/s, open positions on the current contract can be closed and reopened at the next nearby future-otc contract before the last trading day for each contract. The available Futures instruments are:

- (a) Currencies;
- (a) Indices;
- (b) Commodities; and
- (c) Energies.

9.19.2 Where margin, contract size, and general contract specifications are displayed in the Markets Section of the website, and updated periodically.

9.21 Stop Loss, Take Profit, Buy Limit, Buy Stop, Sell Limit, Sell Stop are executed at the price declared by the Client on the first market price touch. - (a) Limit Orders (take profit/buy limit/ sell limit): orders are executed at stated prices.

9.22 The terms and conditions in the Agreement are subject to a Transaction Size within Normal Market Size for the specified Instrument. The Company may, at its absolute discretion, change these terms if the Client wishes to make a Transaction larger than Normal Market Size for the specified Instrument.

9.23 The minimum level for placing Stop Loss, Take Profit and Limit Orders for is found on the Website under markets and in GoDo's MT4 trading platform. The Company has the right to change the Contract Specifications at any time depending on the market situation without prior Written Notice to the Client. The Client agrees to check the full Contract Specifications of the CFD before placing any Order.

9.24 The 1 (one) standard lot size is the measurement unit specified for each CFD. The minimum volume of the transaction is 0.01 Micro Lot but this may differ from account type to another as published on the Website under Contract Specifications. The possible choice of a leverage rate ranges from 1:100 up to 1:400 depending on the type of the CFD and at the Company's discretion. At the opening of the Client Account, the leverage rate is set at 1:400 by default and it is taken into consideration where applicable depending on the type of the CFD and account type. The Client may change the leverage of his Client Account by contacting the Company. The Company has the right to allow a change to the Client Account leverage at the Company's discretion. In addition, the Company may, in its discretion, change the Client Account Leverage without any prior notice to the Client.

9.25 The Company may offer standard lots, micro-lots, and mini-lots, in its discretion, defined as follows: (1.0) standard lot = 100000 of the base currency, (0.1) mini lot = 10000 of the base currency, and (0.01) Micro lot = 1000 of the base currency.

9.26 Utilizing a high level of leverage may extend your trading possibilities and lead to larger gains as well as higher risks; risks might be reduced by following a strict trading strategy at the opening and closure of your transactions. You hereby acknowledge and confirm that you have read and understood fully the Risk Disclosure & Warning Notice, available on the Website. For further information, please talk to a Live Support Representative or view details in the Contact Us section on our corporate website.

9.27 The level of Swap Rates if applied, may vary in size and change depending on the level of interest rates. The Company reserves the right to change the level of Swap Rates without prior Written Notice to the Client.

9.28 Spread for each Instrument is specified by the Company in the Contract Specifications. The Company is entitled to change Spreads without prior Written Notice to the Client.

9.29 The Company offers clients competitive spreads on all instruments, but may rarely make small increases on some or all instruments; ensuring that it provides the best available market conditions and tightest spreads since one of the Company's most important objectives is to ensure that the client's orders are executed at the best market price and that clients get the tightest spreads available. You acknowledge and confirm that you are aware of this throughout the term of the Agreement.

9.30 The Company allows hedging, which means clients are allowed to open positions in the opposite direction of previously opened positions in the trading account, to reduce loss and to decide later when to enter the market.

9.30.1 Hedging an instrument by its corresponding Future OTC contract is forbidden (for swap-free accounts) because this represents an attempt to take advantage of the swap-free facility and gain profits from swaps, one direction of this kind of hedge must be closed immediately. In cases where the client fails to take action to avoid such practices, the Company is entitled to close or take other action (by deducting the swaps retroactively or any other means) on these accounts without previous notice.

9.30.2 Hedged positions will be held in the trading account without affecting the required margin value since the required margin is calculated for each instrument according to the net positions opened at a specific moment.

9.31 The Client acknowledges that Quotes displayed on the Company Website and the market watch on the Trading Terminal of the Client are Indicative Quotes.

9.32 The Company provides Quotes by taking into account the underlying asset price, but this does not mean that these Quotes are within any specific percentage of the underlying asset price. When the relevant Underlying Market is closed, the Quotes provided by the Company will reflect what the Company thinks to be the current Bid and Ask price of the relevant underlying asset at that time. The Client acknowledges that such Quotes will be set by the Company at its absolute discretion.

9.33 The following types of execution are offered for CFD's in currencies (foreign exchange) and CFD's in spot metal:

(a) Instant Execution: from zero to 50 lots, the Client executes a position by clicking on buy or sell buttons and if the price is available in the Company then the Company will confirm this entry otherwise it will re-quote the price. Instant execution request above 50 lots is subject to management approval

9.34 Execution on CFD's in currencies (foreign exchange), spot metal, futures, equity, indices, commodities and options, depending on Market conditions, will take the form of market execution. This means that whenever the Client agrees to buy or sell a CFD in any of those Underlying Assets, the Company will give him the available price in the market even if the requested price by the Client was changed without giving him a re-quote on that entry.

9.35 Scalping and Pip- Hunting is not allowed for Classic and Copy Trading accounts, unless the Company changes its policy on this for which a notice will be posted on the Website. The Company shall have, at its own discretion, the right to reject any Transaction (even an Order or Instruction was accepted) without notice. In case the Company sent a notice to the Client or allowed one or more Scalping or Pip -Hunting transactions were allowed by the Company, then this shall not affect the Company's right, at its sole discretion and without notice to reject any future act of Scalping or Pip – Hunting. The Company shall have the right to also impose fees on the Client for such a conduct at any time without notice.

9.36 In the event that the Company classifies a client as a scalper or a pip hunter - which the company does not currently allow except for ECN Accounts, the Company may, at its sole discretion, and without a prior written notice, take one or more of the following actions:

- (a) Change the account type to the corresponding ECN account type

- (g) Refuse to open new Client Accounts for the Client.
- (h) Pay penalty fees.

9.37 Slippage in CFDs in Currencies occurs when a limit order or stop loss occurs at a worse rate than originally set in the order. In this situation, the Company will execute the trade at the next best price. Slippage in CFDs in stocks often occurs when there is a change in spread. In this situation, a market order placed may get executed at a worse than expected price. In the case of a Long Position, the Ask may have increased, while in the case of a Short Position, the Bid may have lowered.

9.37.1 Slippage involves executing any given trade on a specific price different from the expected price sent or preset by the client. This may take place during highly volatile market conditions such (but not limited to) economic or political news; the order will be filled at the next best available market price because, but not limited to - the desired/preset order price is not available, or because higher spread differences are applied in the corresponding exchanges of the traded instrument.

9.37.2 The Company does not apply slippage under normal market conditions and applies it on stop pending entry or liquidation orders during times when the Company is closed or when - but not limited to - there is a weekend or bank holiday, international economic events, or hectic market movements. In this case stop orders will be filled on the opening price, which the Company finds suitable.

9.37.3 ECN Clients acknowledge that slippage might occur as per the liquidity providers' terms and conditions and that this is beyond the control of the Company and agrees to waive the Company from any liability that may

arise subjective to any damage or expense or loss incurred by the Client, in relation to or directly or indirectly arising from but not limited to such terms and conditions.

9.38 Clients can execute trades 24 hours a day from 00:05 on Monday until 23:30 on Friday (Mauritius Time), except for some instruments which halt at different times such as a break; the trading schedules and more specific information on each instrument is available through the Company's website or within the MT5 platform. The company is required to perform maintenance on its servers each night from 23:58 to 00:02 EET (Eastern European Time). During this time, all trading is halted on the platform.

10 Margin requirements

10.2 It is the Client's responsibility to ensure that he understands how a Margin is calculated.

10.3 The Company has the right to amend any entry in the Contract Specifications section for each CFD including margin requirements, and these changes may take effect on both new and existing/open Positions/trades; which may be declared through an internal mail message or on the company's corporate website, unless a Force Majeure Event has occurred.

10.4 The Company has the right to change Margin requirements without prior Written Notice to the Client in the case of Force Majeure Event. In this situation, the Company has the right to apply new Margin requirements to the new positions and to the positions, which are already open.

10.6 The Client has the responsibility to notify the Company as soon as he believes that he will be unable to meet a Margin payment when due.

10.7 The Company has no obligation to make Margin Calls for the Client.

10.8 Where the Company effects or arranges a Transaction involving an Instrument, the Client should note that depending upon the nature of the Transaction, he may be liable to make further payments when the Transaction fails to be completed or upon the earlier settlement or closing out of his position. He may be required to make further variable payments by way of margin against the purchase price of the Instrument, instead of paying (or receiving) the whole purchase (or sale) price immediately. The movement in the market price of the Client's investment will affect the amount of margin payment he will be required to make. The Client agrees to pay the Company on demand such sums by way of margin as are required from time to time under the Rules of any relevant Market (if applicable) or as the Company may in its discretion reasonably require for the purpose of protecting itself against loss or risk of loss on present, future or contemplated Transactions under this Agreement.

10.9 Any account on Margin call needs to be cautious of equity as the account will be stopped out by closing all Open Positions as the equity reaches 20 % equity to margin level: all pending orders for the stopped-out account will be deleted, and any deficit that may result after liquidation will be handled and covered by the client

10.10 If the Client breaches clause 10.9., the Company has the right to close partially or totally the Clients Open Positions in order for the client Account to go above the required percentage

11.2 If the Client wishes to convert his Client Account into a swap free account or vice versa, he must send a notification to the Company. The Client has the right to convert his Client Account from swap-free into usual Client Account, without inserting any reasons.

11.3 If the Client has a swap free account, no swaps or roll over charges will be applied to trading positions overnight. This means that the Client Account will be free from interest or swap charges and features zero upfront commissions without additional charges per trade.

11.4 If the Client has a swap-free account, all the provisions herein in this entire Agreement apply to him save any mentions to swaps unless the text provides that swaps apply to such a Client as well.

11.5 in the event of market abuse and /or misuses of the swap free advantage by holding floating positions for a long time period, taking advantage of the swap-free facility and gaining profits from swaps, the client who commits these offenses will be charged with a backdated swap on all positions executed in his trading account from the date of opening the account till date, and must close the floating positions immediately.

11.6 Hedging a currency pair by its corresponding Future CFD and/or hedging positions on a swap- based account against positions on a swap free account is forbidden, as these also represent attempts to take advantage of the swap free facility and gain profits from swaps; one direction of this kind of hedge must be closed immediately.

Such situations include without limitation the following examples:

(a) When the Company is acting as a principal, the Company will be acting as the Client's counterparty and hence the Company may be placed in such a position that a conflict-of-interest situation with the Client is created.

(a) Trading in CFDs is not suitable for all members of the public and the Client runs a great risk of incurring losses and damages as a result of trading in CFDs and accepts and declares that he is willing to undertake this risk. The damages may include loss of all his money and also any additional commissions and other expenses.

(b) CFDs carry a high degree of risk. The gearing or leverage often obtainable in CFDs trading means that a small deposit or down payment can lead to large losses as well as gains. It also means that a relatively small movement can lead to a proportionately larger movement in the value of the Client's investment and this can work against him as well as for him. CFDs Transactions have a contingent liability, and the Client should be aware of the implications of this in particular the margining requirements.

(c) Transactions in futures carry a high degree of risk. The amount of initial margin is small relative to the value of the futures contracts so that transactions are 'leveraged' and 'geared'. By a small market movement, the Client may sustain a total loss of initial margin funds and any additional funds deposited with the Company to maintain the Client's open position/transaction(s) and if the market moves against the Client or margin levels are increased, the Client may be called upon to pay substantial additional funds on short notice to maintain the Client's open position/transaction(s).

(d) Foreign Exchange can be highly volatile, and transactions therein carry a substantial risk of loss. The Client's risk exposure increases if the Client's transactions are denominated in a foreign currency or in a basic currency.

(e) Trading on an electronic Online Trading System and/or Mobile Trading Service carries risks:

(i) Access to Online Service and/or Mobile Trading Service or any portion thereof may be restricted or unavailable during periods of peak demands, extreme market volatility, systems upgrades, or any other reason.

(ii) The Company or its Service Provider(s) does not warrant that access to or use of the Online Service and/ or Mobile Trading Service will be uninterrupted or error-free or that the Online Service will meet any particular criteria of performance or quality.

(iii) Neither the Company nor any of its directors, officers, employees, agents, contractors, affiliates, thirdparty vendors, facilities, information providers, licensors, exchanges, clearing organizations, or other suppliers providing data, information, or services do not make any warranty as to the results that may be obtained from the use of the Online Service and/or Mobile Trading Service or as to the timeliness, sequence, accuracy, completeness, reliability or content of any information, service or transaction provided through the Online Service and/or Mobile Trading Service.

(iv) The Company or anyone else involved in creating, producing, delivering, or managing the Online Service shall, under no circumstance including negligence, be liable for any direct, indirect, special or consequential damages that result from the use of or inability to use the Online Service and/or Mobile Trading Service, or out of any breach of any warranty, including, without limitation, those for business interruption or loss of profits.

(v) The Client acknowledges full responsibility and risk of loss that may result from the use of, or materials obtained through, the Online Service and/or Mobile Trading Service and shall be liable for any loss or damage arising from or occasioned by any inaccuracy, error, delay, omission, non-performance, interruption in any such data, information or message due to either to any negligent act or omission or to any condition of force majeure or any other cause, whether or not within the Company or any Service Provider's control.

(vi) The Company is not liable for any losses, lost opportunities or increased costs, increased commissions, etc. that may result from the Client's inability to use the Online Service and/or Mobile Trading Service to place order/ request(s) for transactions, receive a confirmation for a transaction or access information, or from the execution of order/request(s) made by the Client.

(vii) Liability of the Client under this Agreement shall not, in any circumstance, be limited or mitigated by any failure of the Company to provide training, training material or updates, or notice of the change to the trading terms and conditions.

(viii) The Online Service and/or Mobile Trading Service is not directed at or intended to be used by any jurisdiction or country where such use and/or distribution would be contrary to local law and/or regulation. It is the Client's responsibility to ensure that using the Online Service and/or Mobile Trading Service would not be in a breach of any local law or regulation to which the Client is subject to.

40.2 The Client agrees and understands that:

(a) He will not be entitled to delivery of, or be required to deliver, the Underlying Asset, nor Ownership thereof or any other interest therein.

(b) No interest shall be due on the money that the Company holds in his Client Account. (c) When trading in CFDs the Client is trading on the outcome of the price of an Underlying Asset (e.g., currency or metal or commodity) and that trading does not occur on a Regulated Market but Over The Counter (OTC).

40.3 The Client consents to the provision of the information published Website.

40.4 The Client confirms that he has regular access to the internet and consents to the Company providing him with information, including, without limitation, information about amendments to the terms and conditions, costs, fees, this Agreements, Policies, and information about the nature and risks of investments by posting such information on the Website.

40.6 All transactions effected for the Client's account(s) and all fluctuations in the market prices of the Financial Instruments carried in the Client's account(s) are at the Client's sole risk and he shall be solely liable under all circumstances at any given time. By execution of this Agreement, the Client warrants that the Client is willing and financially able to sustain any such losses.

40.7 The Company shall not be liable to the Client for the loss of any margin deposits which is the direct or indirect result of the bankruptcy, insolvency, liquidation, receivership, custodianship or assignment for the benefit of creditors of any bank, another clearing broker, exchange, clearing organization or similar entity.

41 Market Abuse

41.1 We may hedge our liability to you by opening analogous positions with other institutions or in the Underlying Market. The result of our doing this is that when you open or close a Transaction relating to a share or other Instrument with us, your Transactions can, through our hedging, exert a distorting influence on the Underlying Market for that Instrument, in addition to the impact that it may have on our own prices. This creates a possibility of market abuse and the function of this Term is to prevent such abuse.

41.2 You represent and warrant to us now, and agree that each such representation and warranty is deemed repeated each time you open or close a Transaction, that:

(a) you will not open and have not opened a Transaction or Transactions with us relating to a particular share price if to do so would result in you, or others with whom you are acting in concert together, having an exposure to the share price that is equal to or exceeds the amount of a declarable interest in the relevant company. For this purpose, the level of a declarable interest will be the prevailing level at the material time, set by law or by the Exchange(s) on which the underlying share is listed.

(b) you will not open and have not opened a Transaction with us in connection with:

(i) a placing, issue, distribution, or another analogous event;

(ii) an offer, take-over, merger, or another analogous event; or

(iii) any other corporate finance style activity, in which you are involved or otherwise interested; and

(c) you will not open or close a Transaction and you will not place an Order that contravenes any primary or secondary legislation or other law against insider dealing or market manipulation. For the purposes of this Term, you agree that we may proceed on the basis that when you open or close a Transaction or place an order with us on a share price, you may be treated as dealing 'in an Investment or a related investment' (d) you will not open or close a Transaction(s) and you will not place an Order that may be considered scalping or arbitrage, or the main purpose is to gain profit from swap interest.

41.3 In the event that (a) you open or close any Transaction or place an Order in breach of the representations and warranties given in agreement terms, or (b) we have reasonable grounds for suspecting that you have done so, we may, at our absolute discretion and without being under any obligation to inform you of our reason for doing so, close that Transaction and any other Transactions that you may have open at the time, if applicable, and also, at our absolute discretion:

(a) Enforce the Transaction or Transactions against you if it is a Transaction or Transactions under which you have incurred a loss.

(b) Treat all your Transactions that meet the circumstances set out in this Term as void if they are Transactions under which you have secured a profit, unless and until you produce evidence that satisfies us that you have not, in fact, committed the breach of warranty and/or misrepresentation the suspicion of which was the ground for us taking action under this Term. For the avoidance of doubt, if you do not produce such evidence within the period of three months from the date on which action is taken by us under this Term, all such Transactions will be finally null and void as between you and us; or

(c) Cancel any Order on your account with us.

41.4 You acknowledge that the Transactions in which you deal with us are speculative instruments and you agree that you will not open any Transactions with us in connection with any corporate finance style activity.

41.5 You acknowledge that it would be improper for you to deal in the Underlying Market if the sole purpose of such a transaction was to impact on our bid or offer prices, and you agree not to conduct any such transactions.

42 Manifest Error

42.1 We reserve the right to either void from the outset or amend the terms of any Transaction containing or based on any error that we reasonably believe to be obvious or palpable (a "Manifest Error" and any such Transaction a "Manifestly Erroneous Transaction"), without your consent. If, in our reasonable discretion, we choose to amend the terms of any such Manifestly Erroneous Transaction, the amended level will be such level as we reasonably believe would have been fair at the time the transaction was entered into. In deciding whether an error is a Manifest Error we shall act reasonably, and we may take into account any relevant information including, without limitation, the state of the Underlying Market at the time of the error or any error in, or lack of clarity of, any information source or pronouncement upon which we base our quoted prices. Any financial commitment that you have entered into or refrained from entering into in reliance on a Transaction with us will not be taken into account in deciding whether or not there has been a Manifest Error.

42.2 In the absence of our fraud, wilful default or negligence, we will not be liable to you for any loss, cost, claim, demand or expense following a Manifest Error (including where the Manifest Error is made by any information source, commentator or official on whom we reasonably rely) or in relation to a Manifestly Erroneous Transaction.

42.3 If a Manifest Error has occurred and we choose to exercise any of our rights under agreement terms, and if you have received any monies from us in connection with the Manifest Error, you agree that those monies are due and payable to us and you agree to return an equal sum to us without delay.

43 Amendment

43.2 Unless provided differently elsewhere in this Customer Agreement, the Company has the right to amend the terms of the Agreement at any time giving to the Client at least two Business Days Written Notice prior to such changes.
